

## **Genesis Restorations Raises \$400 for BC's Kids!**

Genesis is a proud supporter of the **Institute of Real Estate Management (IREM)**. On May 18th we participated in their 15th Annual Golf Tournament at Hazelmere Country Club. As the sponsors of Hole 12 we held a fun Putting with Purpose contest. From our contest we raised the days 2nd largest amount with four hundred dollars going straight to BC's Children's Hospital. Our funds will be added to IREM's running amount being raised for the charity and will presented to them at the year end luncheon in December.

Though the day started out very soggy, the sun came out right a tee time and continued to shine for the rest of the day. Everyone was in a great mood and much fun was had by all that attended. Our fearless Genesis team was represented by Alan Carroll, Dal Seymour of PML, Joe Escribano, and Rod Hurry of Baywest.

The event was capped off by a fabulous BBQ dinner where Genesis owner, Graham Dick drew our grand prize winners.

**Congratulations to  
Karen Rahal of Concert Properties and Denise Sadgrove of Rick MacDonald Contracting!**

We are passionate about giving back to our community and are very proud of our contribution to BC's Sick Kids. No one should have to experience the pain of a sick child but when they do we are happy our fund raising can help, even just a little bit.

### **BC Children's Hospital:**

***Mandate:** BC Children's Hospital delivers child and youth health and rehabilitation services and is the province's major treatment, teaching and research facility for child health.*

***Vision:** Better health for children and youth, achieved with partners who work together to ensure access to best practices and best care in the best setting.*

Through BC Children's Hospital and Foundation their research into childhood illness finds better ways to heal and the ability to fight diseases that not too long ago claimed children's lives. They support the growth of our children by providing annual funding for research, equipment and education, and through the construction of a new BC Children's Hospital.

Together we can give BC's children the room they need to heal, to grow, and to live.
