## Press Release

FOR IMMEDIATE RELEASE

# Genesis partners with IntegResource Canada

---

**Langley, BC – June 13<sup>th</sup>, 2008** – IntegResource Canada is a National One-call Contractor Network which Genesis has joined. As we have been growing, we have recognized that the demand for a national solution to damage restoration among nation wide property managers, commercial interests and insurance companies is also growing.

After reviewing several options, we chose IntegResource as the best vehicle to align our company with in providing a superior service to those clients in our service areas. Their internal Quality Assurance Program raises the bar to a level that most restoration companies currently do not achieve and we are proud to partner with a Network which has such high standards.

All of our current clients as well as our new ones will benefit from this higher service standard.

Creating Order From Chaos,  
Graham Dick  
President  
Genesis Restorations Ltd.
